MARKET GARDEN LIST

Orange, Connecticut,

January 1st, 1934.

TO OUR MARKET GARDEN CUSTOMERS:—

We are handing you herewith a modest little catalogue, this being our 45th annual issue. Some of you have sent us in orders each year for nearly this entire length of time and we appreciate your business.

We have cut down on the expense of our catalogue this year and are trying in every way to reduce our overhead, and we are reflecting these reductions in the prices we are making you for SEEDS. In our judgment this is the time when ALL should be most careful as to their expense. We have decided that it is wise to make very low prices to our trade, believing that such will be a great help at just this time.

Please bear in mind that the prices named in this catalogue are for CASH WITH ORDER. When special arrangements are made and credit is given, the prices must necessarily be higher than the prices appearing in this book. Therefore, you need not be surprised at these low prices.

Our forecast is that very soon it will be necessary for us to go on to a cash basis entirely in the transactions we have with seed buyers. This method will be of substantial benefit to our customers by the savings effected which is absolutely necessary in interest charges, the cost of collections, bad debts, etc. After all, we are seedsmen and do not enjoy being bankers and bill collectors.

We trust we shall receive your orders, as usual, and thank you for all past favors.

Very truly yours,

S. D. WOODRUFF & SONS

ITALIAN GREEN SPROUTING BROCCOLI

We are pleased to announce that we are now able to offer a dependable stock of this very desirable Broccoli, for which there is now a growing demand that will increase rapidly when this vegetable becomes better known.

This variety develops in about 90 days, producing a large head, like cauliflower, consisting of a compact cluster of bluish-green flower heads. When the central head is removed the plant produces many branches, each bearing small heads. These are cut with 3 or 4 inches of the branch attached and tied in bunches for market. The stems as well as the flower heads are cooked.

Woodruff's Wonder Cucumber

CUCUMBER

Woodruff's Wonder Cucumber . . Per oz., 25c.; ¼ lb., 75c., lb., \$2.00; 10 lbs., \$17.50

Woodruff's Wonder is unquestionably the handsomest cucumber we have grown. It is often called The Outside "Hothouse Cucumber" on account of its length 10-12 in.; slender diameter 1-1 ½ inches; tapered shape and intense dark green colored skin moderately covered with small warts. It is quite distinct from Longfellow's large diameter, light color and white striped smooth skin.

Woodruff's Hybrid Per oz., 25c.; ¼ lb., 75c.; per lb., \$2.00; 10 lbs., \$17.50

Our principal reason for selecting this strain was its freeness from blight. It is robust, hardy and a big cropper. The seed has been selected from staked hills, not from selected fruits. A fine strain of market Cucumber. It is early, dark green in color, a good shipper, anda tremendous yielder with fruit longer than the usual White Spine.

Longfellow (New) Per oz., 25c.; ¼ lb., 75c.; per lb., \$2.00; 10 lbs., \$17.50

An excellent long, slender, dark green variety equally desirable for greenhouse forcing or out door culture. An ideal type for the private garden or as a "straight pack" variety for shipment to market. 12 to 14 inches long by 2 ½ inches in diameter. W. S.

Early Fortune Per oz., 20c.; ¼ lb., 60c.; per lb., \$1.15; 10 lbs., \$10.00

One of the finest market cucumbers of the White Spine type. The fruits measure 9 inches long and are slightly tapering. The thick flesh is pure white, firm and unusually crisp, with very few seeds. The fruit are of a rich, dark green color which does not fade.

The unusual thick wall is the dominating feature of California Wonder. It is the heaviest Pepper now under cultivation in America. In maturity, California Wonder is slightly later than World Beater. It is a heavy producer, often bearing from 6 to 8 large fruits at one time. The fruits will average over ½ pound in weight. The thick wall, usually averaging from ¼ to ⅜ inches, makes it a premier shipping variety. It packs well, the skin is smooth and glossy and will not wilt under long-distance handling.

All Radish Pkt. 10c.; oz., 15c.; ¼ lb., 25c.

Crimson Giant.Per lb., 50c.

A variety extraordinary in that while growing to an unusually large size, it is always tender, crisp and of mild flavor. It remains in perfect condition a remarkably long time and unlike other forcing varieties, does not become pithy even when twice their size in diameter. The most showy Bunch and Crate Radish grown.

Special Sparkler White Tip.Per lb., 50c.

Of rich carmine-scarlet color, with a very pronounced tip of the purest white. The roots, even when fully developed, are solid, crisp and sweet, and remain fit for use as long as the coarser kinds. It is equally well adapted for forcing in frames or growing in the open ground. While the leaves are small, they are sufficiently large for bunching.

Viek’s Scarlet Globe—S. D. W. Selected.Per lb., 50c.

We have an exceptionally fine stock of this superb variety. It is one of the very earliest of the forcing radishes and does equally well outside; roots are of fair size, globe-shaped and with a very small top; always crisp and tender; color a bright scarlet.
